

Play it Again: Marian, the Librarian

DEAVER

Section A:

Summoning and The Way

RACHEL

Look here it says

That we're

Bewitched

I fear

Such scurrilous sorcery cannot be kosher-y ... can it be? Gabe, you see?

STEFAN

Heaven help us

We will be here for days at this rate

And the city will go on singing

DEAVER

If you'll help try the books in Section B: Mystical Bestiary

RAVEENA

Or it could be

I see

Reality

An alternate universe or maybe just a curse someone cast? Who? Don't ask.

DEAVER

Or a wish

By a demon who granted wishes

For some frustrated Broadway performer

We would probably find that in Section L:

Demonic Dimensions, Hells.

GABE

Now in the moonlight,

A man could cast this
In the moonlight
And if you were with me, just think we
Could create a world of our own
In the moonlight
Just us alone ...

RACHEL

Some other spell
Perhaps
Magic shoes
With taps
An enchanted item, it's harder to fight 'em with just your fists. I'd be pissed.

DEAVER

It could also be some kind of demonic thing
I found one who causes folks to involuntarily sing
But combustion also appears to be one of his things

Maybe Section K?

No, we should be on our way.
